

Stop Before Your Op

Quit smoking before surgery. Feel better, heal better and recover more smoothly.

Mid and South Essex

WHY STOP?

Fewer complications

Stopping reduces risks during and after surgery.

Better healing

Improved oxygen supply helps wounds heal.

Smoother recovery

Your heart and lungs have less strain.

FREE HELP IS AVAILABLE

- One-to-one support
- Stop smoking aids
- Text and app tools
- Advice on vaping and harm reduction
